# Introduction

## Pairing

- Find a YoLink remote as controller(Master). Hold any ON button for 5-10 seconds, the light will flash green quickly.
- Find an action device as responder(Receiver). Hold the power/set button for 5-10 seconds, the device will enter the pairing mode.
- After pairing succeed, the light will stop flashing.
- When press the ON button or ALL ON button on the remote, the action device will turn on. When press the corresponding OFF button or ALL OFF button on the remote, the action device will turn off.

## Un-pairing

- Find the controller(Master) YoLink remote. Hold the OFF button for 10-15 seconds, the light will flash red quickly.
- Find the responder(Receiver) action device. Hold the power/set button for 10-15 seconds, the device will enter the un-pairing mode.
- The above two devices will unpair by themselves and the light stops flashing.
- After unbundling, all the control button will no longer change status of the device.
