

X3 OUTDOOR ALARM CONTROLLER

YOLINK

WIRELESS SMART 12VDC ALARM DEVICE CONTROLLER
MODEL: YS7105

INTRODUCTION:

The X3 Outdoor Alarm Controller is a smart alarm device controller, capable of controlling YoLink 12VDC siren/horn products. This commercial-grade X3 line product boasts a 10-year replaceable lithium battery, and a ruggedized IP65 housing

FEATURES & BENEFITS:

- LoRa-based up to ¼ open-air wireless range
- 24/7 cloud device supervision ensures functionality when needed
- Adds wireless, smart control to non-smart alarm devices
- Can be remotely located from the alarm device, with optional extension cords
- Compatible with Control-D2D devices, it can be paired with YoLink devices such as the motion, door and vibration systems, so the siren is activated automatically, even with the loss of an internet connect and AC power.
- See the Outdoor Alarm Controller 2, with 1 amp output and 12VDC input

SPECIFICATIONS:

Housing IP Rating: IP65

Voltage Out: DC 12VDC

Output Load Power: 400 Milliamps, max.

Standby Power: (1) ER34615 3.6V Replaceable Lithium Battery

Cables: 2-Conductor Cable, 8.5" (215.mm), w/Watertight Connector

Environment Temp. Range: -4° to 140°F (-20° to 60°C)
