

SIREN ALARM

Model YS7103-UC Indoor Audible/Visible Notification Device

YOLINK

FEATURES:

Versatile siren alarm with remote control via the Android/iOS app, and numerous YoLink control devices. Suitable for wall-, shelf- or countertop-mounting. Three sound levels from 110 decibels ("high") to 100 dB ("low"). Pair to YoLink devices using the Control-D2D device-to-device pairing feature. This allows for automatic siren operation (for example, for intrusion detection or leak detection) of the siren, even if the power is out and the internet is down.

APPLICATIONS:

Intrusion detection/security alarms, water leak alarms, fridge/freezer alarms. Can also be used as a remote siren for the Power Fail Alarm. For outdoor applications, consider our YS7104 and YS7105 Outdoor Siren and Alarm Controllers

SPECIFICATIONS:

Power: 5 VDC (Via Micro USB Cable)
Operating Temperature Range: 32°F - 122°F (0°C - 50°C)
Battery Back-up Duration: ~ 72 Hours
Two AA Lithium Batteries Included
