

# TEMPERATURE & HUMIDITY SENSOR

YOLINK

Model YS8003-UC

## FEATURES:

Indoor temperature and hygrometer sensor with remote viewing and management via the Android/iOS app. Monitors and records ambient conditions, with responses to pre-defined abnormal conditions in the form of smartphone push notifications (including Critical Alerts for iOS phones), emails, SMS/text messages, and device actions, for example, SpeakerHub audio broadcasts of tones/sounds and verbal messages. Suitable for wall-, shelf- or countertop-mounting. Historical data can be exported to CSV file, and for more advanced monitoring and control, the sensor is compatible with Raedius Web Console, our browser-based dashboard.

## APPLICATIONS:

Commercial and residential refrigerator, freezer, cooler temperature and humidity monitoring. Plant nursery, grow room, pet, childcare and general ambient indoor temperature and/or humidity monitoring.

## SPECIFICATIONS:

Operating Temperature Range: -22°F to 140°F (-30°C to 60°C)  
Alert Temperature Range: -22°F to 140° (-30° to 60°C)  
Expected Battery Life: 2+ Years  
Two AA Lithium Batteries Included
